NEW: CLIQ II DIN RAIL 48V 120W (2.5A)

TYPICAL APPLICATIONS

*AVAILABLE IN APRIL 2012

Global power supply manufacturer Delta Electronics Group has announced the launch of CliQ II 48V 120W Single Phase DIN Rail Standard Power Supply. The 120W specification come with 3 years warranty like all Delta CliQ series. These are also compatible with both 20A and 40A CliQ II Redundancy Modules.

All CliQ II DIN Rail power supplies have 150% Power Boost for 5 seconds and efficiency of more than 90%. Power Boost feature prevents system from shutting down during sudden output surge load demands from the system, thus, enhancing the system's reliability. Such feature is typically only available in products at twice the price of CliQ II.

Similar to all CliQ series, CliQ II 48V 120W Single Phase can operate in

chemically hazardous location due to its conformal coated circuit boards certified in accordance to Class 1 Div 2 ATEX Directives. All CliQ II products are IP20 compliant. For redundancy set up, the slim 20A and 40A CliQ II Redundancy Modules with relay function are the ideal accessories for CliQ Power Supplies.

CliQ II DIN Rail 48V 60W Single Phase power supply is compliant with international Safety standards such as UL60950-1, UL508, SIQ to EN60950-1 CSA C22-2 No. 107.1-01, EN55011 for Industrial applications and many more.

The CliQ II 48V 240W will be available for shipment in April 2012.
